

The Liguanea Preparatory School offers excellent opportunities for parents and students in pursuit of exceptional academic and social learning.

I am the proud Principal of this learning institution. We have a commendable history of achievement and have been given the opportunity to mould young minds from age 3 to 12 years. Those who have graduated are now at various stages of their development from high school to university and to the world of work. All making valuable contributions to Jamaica and various parts of the world.

We will be celebrating fifty years of service to the learning environment this year and we continue to grow with our trained teachers, improved technology, extra-curricular activities that are geared for students with varied interests, personalities, skills and learning abilities.

We invite you to visit our Campus located at 15a East Kings House Road, Kingston 6, Jamaica. The Campus is a part of the Kings House lands (approximately) 2 acres, with an environment most suitable for learning and sporting activities. Let us show you around and you will agree that this preparatory school with all these facilities and family like atmosphere is the perfect place for your child to learn and grow.

Please communicate with us further so that we can continue this conversation.

Dr. Paulette Francis-McGregor, JP
Principal
